

# JETBIRD™

CABERNET SAUVIGNON 2018  
NORTH COAST, CALIFORNIA

## BACKGROUND

Leonardo da Vinci designed a flying machine mimicking the winged animals he observed so closely. Enraptured by the possibility of flight, his machine illustrated his forward-thinking, imagination, and the power of observation. Jetbird Wines take flight bringing you classic, old world varietals with touches of new world modernity.

## VITICULTURE

Encompassing both Napa and Sonoma counties, the North Coast AVA is highly regarded for its moderate Mediterranean climate influenced by cool morning fog and breezes off the Pacific ocean. A marked diurnal shift helps grapes maintain their acidity and balance.

## TASTING NOTES

Bold and robust, this Cabernet Sauvignon delights with rich, stewed berries and subtle bell pepper on the nose. Firm tannins, medium body and warm, spicy notes on the palate.

## SUGGESTED PAIRINGS

Pairs well with bold smoked cheeses, barbecue wings, and roasted stuffed peppers.
